Definitions

A pregnancy-associated death refers to the death of a woman while pregnant or anytime within one year of pregnancy regardless of cause.¹

- **Pregnancy-Related Death.** The death of a woman during pregnancy or within one year of the end of pregnancy from a pregnancy complication, a chain of events initiated by pregnancy or the aggravation of an unrelated condition by the physiologic effects of pregnancy.
- **Pregnancy-Associated, but Not-Related Death.** The death of a woman during pregnancy or within one year of the end of pregnancy from a cause that is not related to pregnancy.
- **Pregnancy-Associated but Unable to Determine Pregnancy Relatedness.** The death of a woman while pregnant or within one year of pregnancy, due to a cause that could not be determined to be pregnancy-related or not pregnancy-related.
